From,

The Health Officer
Nagar Palika Parishad
Muzaffarnagar (UP)

To,

The Manager/Principal
Grain Chamber Public School
Muzaffarnagar (UP)

Ref No.:- 690 /GEN/2021-22 Dated 25/09/2021

SUB.:- Certificate regarding the sanitary and drinking water report.

Dear Sir,

With reference to your application dated 21.09.2021 in connection with the above concern, I, with the team personally visited both the wings of school-New Mandi & Naveen Mandi Sthal and physically checked all the sanitary fittings/points. All types of W.C. and Urinals are found as per standard and sufficient to the requirement of all the children & staff members.

There are 49 flush systems/latrines and 26 Urinals fitted with flush and 18 water taps. Regarding the drinking water, Nagar Palika Parishad, Muzaffarnagar water supply is adequate for the total strength of the children.

I found the building and its surrounding well neat and tidy out of the pollution of the city crowded area.

Hence the report/certificate is submitted with all necessary approvals.

Thanking you.

Yours truly,

Principal
Grain Chamber Public School
New Mandi, Muzaffarnagar
